

Ignite Social Progress

The International Coach Federation Foundation offers a transformational partnership in accomplishing the vision of igniting social progress. Through building capacity among the supporters of social change we are the catalyst for delivering impact and making the seemingly impossible, possible. Our vision is centered on values of respect, acceptance, love, collaboration, compassion and hope.

Together, we will move the world forward.

Coaching will fill the gap between what is needed from humanity and what is currently present, enabling transformations across the globe. Coaching will enable society to thrive.

Pro Bono Coaching, Research and Training

In an effort to work toward successes, we...

- Cultivate frameworks and active partnerships for coaching to support progress toward social change;
- Lead research opportunities to ensure social progress initiatives remain a focus for individuals and organizations;
- Develop coaches within diverse populations advancing coaching across various demographics;
- Through our partnership with the International Coach Federation (ICF), we connect nonprofits and humanitarian organizations with coaches who hold an ICF credential, and possess an interest in social progress.
