Partnering for Social Impact

The Impact of Corporate Social Responsibility

Ninety percent of consumers are likely to trust and be loyal to socially responsible companies compared to companies that don't contribute to positive change.¹ Additionally, three-quarters of millennials would take a pay cut to work for a socially responsible company.²

Demonstrate your corporate social responsibility through supporting the ICF (International Coaching Federation) Foundation. Your business can accelerate and amplify social impact by partnering with us to increase the effectiveness of social change organizations through professional coaching. Together we support the 2030 Global Goals established by the United Nations (UN) such as quality education, good health and well-being, no poverty, reduced inequalities, and zero hunger.
